

INDEX.

- Abbey, O. L.—Excessive medication, 234.
- Abdomen, penetrating wounds of, 611, 812; diagnosis of wounds of, 719; fatty heart from intra-abdominal pressure, 69; nervous pulsation, 365; surgery of, 597, 704.
- Abdominal section, pelvic surgery by, 778.
- Abortion, method of inducing, 161.
- Abscess of liver, 55, 597, 637; ovarian, 108; perityphlitic, 29; of brain, 118; operations for, 445; ischio-rectal during labor, 20; of spleen, 216; ossifluent, 227; in middle ear, 420; mammary, treatment of, 468; in urethra, 654; cold, 131; treatment of, 723; of liver and lungs, 409.
- Abscesses, pelvic, 764.
- Absorption of antipyrine, 676.
- Académie de Médecine, 439.
- Acetophenidine, 616.
- Acid, hydrochloric in stomach, 813.
- Acids, fatty, in wasting diseases, 87; of stomach, investigation of, 390.
- Acne, treatment of, 18, 510.
- Acute phthisis, 292; intestinal obstruction, 308; renal disease, blood pressure in, 710; articular rheumatism in nursing infant, 809; iodine poisoning, 812.
- Address by Dr. J. M. Da Costa, 497.
- Adonis vernalis, 383.
- Adulteration, bill against, 447; of food, 485.
- Ady, A.—Spontaneous cure of perityphlitic abscess, 29; reduction of thyroid dislocation of the thigh bone, 140; case of radical cure of hernia, 662; appendix vermiformis, 716.
- Agitans, paralysis, 521.
- Agnew, Prof., celebration in honor of, 481, 497.
- Agraphia and Aphasia, 400.
- Albuminous periostitis, 59.
- Albuminuria from irritating the pneumogastric nerve, 95; intermittent, 369.
- Alcohol, 720; destiny of, 362; strychnine, contrast of, 582.
- Alcoholic beverages, abuse of, 309; asthenia, massage in, 541.
- Algerian climate, 570.
- Allochiria, 406.
- Amaurosis, induction of premature labor in, 143.
- Amblyopia, tobacco, formula for, 584.
- American Association of Genito-Urinary Surgeons, 551.
- Ammoniacal gases, cholera germs destroyed by, 332.
- Ammonium, borate of, 128.
- Amputation, triple, 438; for railway injury, 423, 431; quadruple, 660; of leg, 669.
- Amylene hydrate, 315, 154, 584.
- Anachlorhydric or negative digestions, 393.
- Anæmia, pernicious, 434.
- Anæsthesia, early, 550.
- Anæsthetic alkaloid, another, 385; new, 411.
- Anæsthetics, insanity from use of, 81.
- Analgesine, 685.
- Analysts, need for public, 332.
- Anatomy, morbid, of pericecal inflammation, 1.
- Aneurism of auricular artery, 81; multiple of aorta, 240; nervous abdominal pulsation simulating, 365; traumatic, 417; of orbit, 447.
- Anomalous features in ovariectomy, 319.
- Antifebrin, 584; experience with, 62; in feverish conditions, 341; in hemicrania, 517; in nervous disorders, 569; mixture, 720.
- Antineuralgic formula, 654.
- Antipyrctic, resorcin as, 794.
- Antipyrine, 741; in hemoptysis, 191, 352; action upon nutrition, 117; in epilepsy, 128; new uses for, 254; poisoning with, 367; in pleuropneumonia, 349; in nocturnal emissions, 419; in migraine, 407; in labor, 545; indications of, 540; as hæmostatic, 181, 516; absorption and excretion of, 676; in chorea, 759; in sea sickness, 817.
- Antiseptic, naphthol as, 96; iodine as, 154; midwifery, 397; acidified corrosive sublimate an, 617; remedy in phthisis, 689; ammunition, 825; obstetrics, 783.
- Antiseptics, incompatibility of, 825.
- Antrum, catarrh of, 344.
- Anus, artificial, 273.
- Aorta, aneurism of, 240.
- Aortic and mitral valves, diseases of, 646.
- Aphasia, 113, 115; and agraphia, 400.
- Apoplexy, spinal, 523.
- Apparatus for removal of pleuritic effusion, 607.
- Apparitions, warning, 319.
- Appendix vermiformis, 716.
- Aproxia, 307.
- Aromatic vinegar, 822.
- Arsenic in treatment of warts, 189.
- Art at home, 452.
- Artery, auricular, aneurism of, 81; internal planter, aneurism of, 417; axillary, embolism of, 507.
- Arthritis, rheumatoid, 214.
- Arthropathy, new form of, 568.
- Articular rheumatism, acute 111; in nursing infant, 809.
- Artificial cow's milk, 317.
- Asclepias Syriaca for lumbago, 399.
- Ashurst J., Jr.—Case of successful simultaneous triple amputation for railway injury, with remarks on the technique of multiple amputation, 423.
- Asphyxia in cholera, treatment of, 668.
- Asphyxiated new-born children, resuscitation of, 81.
- Aspirating the heart, 161.
- Asserted antagonism of certain poisons, 851.
- Asthenia, alcoholic, massage in, 541.
- Asthma, treatment of, 788.
- Asymmetry of face, 385.
- Ataxia, locomotor, 522.
- Athetosis in girl, 751.
- Atrophic uterus, sterility due to, 264.
- Atrophy of optic nerve following chorea, 678.
- Atropine, somnambulism caused by, 160.
- Aulde, John.—Small Doses; Therapeutic Considerations, 838.
- Auricle, mastoid periostitis from injury to, 618.
- Aurium tinnitus, advice wanted for, 349.
- Authority of boards of health, 860.
- Autopsy on Emperor of Germany, 824.
- Axilla after exsection, 198.
- Baby, gonorrhœa in a, 372.
- Bacillus in syphilis, 785.
- Bacteria, self protection against, 26; examination of sea air for, 280.
- Bacteriology, 512.
- Bacteriological water-test, 307.
- Bacteriotherapy, 612.
- Barnes, W. H.—Difficult twin labor, 434.
- Bates, Jas.—The sewing-machine and its evils, 360.
- Baths in childhood, 87.
- Batey vs. Tait, 717.
- Beck, A. L.—Prescribing druggists, 449.

- Asthenia, alcoholic, massage in, 541.
- Asthma, treatment of, 788.
- Asymmetry of face, 385.
- Ataxia, locomotor, 522.
- Athetosis in girl, 751.
- Atrophic uterus, sterility due to, 264.
- Atrophy of optic nerve following chorea, 678.
- Atropine, somnambulism caused by, 160.
- Aulde, John.—Small Doses; Therapeutic Considerations, 838.
- Auricle, mastoid periostitis from injury to, 618.
- Aurium tinnitus, advice wanted for, 349.
- Authority of boards of health, 860.
- Autopsy on Emperor of Germany, 824.
- Axilla after exsection, 198.
- Baby, gonorrhœa in a, 372.
- Bacillus in syphilis, 785.
- Bacteria, self protection against, 26; examination of sea air for, 280.
- Bacteriology, 512.
- Bacteriological water-test, 307.
- Bacteriotherapy, 612.
- Barnes, W. H.—Difficult twin labor, 434.
- Bates, Jas.—The sewing-machine and its evils, 360.
- Baths in childhood, 87.
- Batey vs. Tait, 717.
- Beck, A. L.—Prescribing druggists, 449.

- Belladonna plaster, poisoning from, 588.
 Benjamin, D.—Compound fractures, with compound dislocation of shoulder: complete recovery, 775.
 Benzine in making suppositories, 128.
 Benzoate of sodium in tonsillitis, 254.
 Berlin letter, 672.
 Beverages, alcoholic, abuse of, 309.
 Bichloride, acid solution of, 583.
 Bile, action of calomel upon, 676.
 Bilharzia hematobia, case of, 88.
 Biniodide of mercury in surgery, 572.
 Birth, live in child-murder, 88; numerous fractures at, 510; in railway car, 93.
 Bitters, influence upon function of stomach, 813.
 Black tongue, 477.
 Blackmail, attempted, 420.
 Blackwell, E. T.—Imperfect preparation for the practice of medicine, 102; submucous and subserous fibroids of the uterus, and bony degeneration of the right ovary. Recession of the intramural tumor during treatment. Death by obstruction of the bowels, from pressure and peritoneal inflammation, 329; first impressions of undeveloped diseases and first treatment, 526.
 Blackwood, W. R. D.—Electrolysis versus oöphorectomy, 428.
 Bladder, piece of catheter from, 51; removal of foreign bodies from, 86; for irritable, 191; operative surgery of male, 418; what constitutes a stone in, 541; washing out, 576; rupture of, 759.
 Blindness, sight restored after, 242.
 Blistering, liquid 161.
 Blood clot, healing under, 119; in brain, circulation, of, 280; pressure, influence of upon transudation, 610; in ligatured vessels, 708; pressure in acute renal disease, 710.
 Boils, nitrate of mercury in, 465.
 Boldine, new hypnotic, 646.
 Borate of ammonium, 128.
 Borofuchsine, a stain for tubercle bacilli, 709.
 Bowels, death from obstruction of, 329; chronic obstruction of, 602.
 Brain, abscess of, 118; of celebrated men, 127; large, in woman, 160; circulation of blood in, 280; surgery of, 372; operations for abscess of, 445; bullet, wound of, 683.
 Breasts, hygiene of, 810.
 Bright's disease, acute, in children, 317.
 Bringier, J. T.—Prescription for headache, 717.
 Bronchitis, treatment of, 540.
 Broncho-pneumonia, 173.
 Brower, Daniel R.—Paralysis agitans; locomotor ataxia; lateral sclerosis; paraplegia, 521.
 Brown-Séquard on cerebral localizations, 731.
 Brubaker, A. P.—Dental irritation as a factor in the causation of epilepsy, 67.
 Bundy, A. D.—Pertussis and jaundice, 30; useful prescriptions, 185; a correction, 251.
 Burn, a bad, 92.
 Burns, formula for, 518.
 Burt, A. Jr.—Onanism and masturbation, 350.
 Byers, J. W.—Diseases of the Southern negro, 734;
 Byrd, A. H.—Veratrum viride, 820.
 Cachexia in Graves' disease, 788.
 Cæsarean section, 584, 758.
 Cæsarean section, improved, 787.
 Caffeine, 551.
 Calculus, vesical, 95.
 Calomel upon bile, action of, 676.
 Camp, C. F.—Chordee a frequent cause of stricture and chronic gonorrhoea, 29.
 Camphor in epilepsy, 420.
 Canadensis hydrastis, 608.
 Cancer of larynx, 187; of stomach, glands in, 245; vaginal hysterectomy for, 538; recurrence of, 537; climate and distribution of 542; presence of, 575; treatment of, 752; abnormal forms of, 570; uterus, removal of, 689; of stomach, rupturing externally, 812.
 Cannabis Indica, uses of, 341.
 Carbolyzed spray in carbuncle, 163.
 Carbuncle, treatment of, 168.
 Carcinoma, inoculation of, 793.
 Carcinoma of cervix, 212, 340.
 Carotid internal, rupture of, 64; hemorrhage, treatment of, 224; ligature of, 369.
 Caseine, basis for emulsions, 56.
 Castration in tubercular disease of testis, 509; as a cure for crime, 511; and development of genital tract, 615; impregnation after, 450.
 Cataract operations, cocaine in, 653; treatment of, 713.
 Catarrh of antrum, 344.
 Catgut suture, 542.
 Catheter, aseptic two-way, 338.
 Catheterizing the male ureters, 651.
 Catheterization of ureters, 714.
 Caustic balsam, 821.
 Caustic paste, improved, 32.
 Cellulitis, pelvic 202.
 Cerebral tumor, 126, 586; localization, 378, 731; symptoms in pneumonia of children, 674.
 Cervical spina bifida, 20; abortive hypertrophic pachymeningitis, 510.
 Cervix in virgin, carcinoma of, 212; laceration of, 489; dilatation, cocaine in, 517.
 Chapin, John B.—The forcible feeding of the insane, 500, 503.
 Chapped hands, 319.
 Charcot on aphasia and agraphia, 400.
 Charming away of warts, 453.
 Cheerfulness as aid to medicine, 345.
 Chemical dyspepsia, diagnosis of, 390.
 Chewing and swallowing glass, 61.
 Child, newborn, survival of, 794.
 Child murder, sign of live birth in, 88; new-born, management of, 631; peculiar anomalies of, 660.
 Childhood, baths in, 87.
 Children, acute nephritis in, 24; washing out stomach in, 90; resuscitation of asphyxiated, 81; affections of middle ear in, 117; heedless talk before, 120; constipation in, 161; heart disturbances in, 169; ophthalmia in, 175; acute Bright's disease in, 317; incontinence of urine in, 419; feeding of, 582; cerebral symptoms in pneumonia of, 674; empyema in, 699; phthisis in, 750; Creasote in affections of lungs in, 822.
 Children's Model Ward, 253; eyes, care of, 371; teeth, management of, 509.
 Chinese doctor and his fees, 256.
 Chisholm, J. J.—Pterygium completely covering the cornea, 633.
 Chloral in labor, death after, 596.
 Chloride of methyl, local refrigeration with, 288; of zinc, cancerous uterus removed by, 689.
 Chloroform in neuralgia, 213.
 Cholera infantum and weather, 239; germs destroyed by ammoniacal gases, 332; asphyxia, treatment of, 668.
 Chorea, treatment of, 19; physostigmin in, 384; optic atrophy following, 678; antipyrine in, 759.

- Christian science, 791.
 Christian science, 383; fatal effect of, 582.
 "Christian scientist" gets off, 860.
 Chronic wasting diseases, 87.
 Cicatrix of suprapubic lithotomy, 759.
 Cigar-making and insanity, 217.
 Cincinnati letter, 403.
 Circulation of blood in brain, 280; action of green hellebore upon, 410.
 Circumcision, ritual, tuberculosis by, 379; Israelite, 567.
 Climate, Algerian, 570.
 Cocaine in skin diseases, 153; in glaucoma, 370; toxic action of, 384; means of differential diagnosis, 384; in dilatation of cervix, 517; use of, 610; in cataract operations, 653; uses of, 822.
 Coccygodynia and pruritus ani, 563.
 Coccyx, fracture of, 116.
 Cod-liver oil, substitute for, 311.
 Cohen, S. Solis—Treatment of foetid coryza, 43.
 Cold, instantaneous, 814.
 Colds, treatment of, 540.
 Colic from intestinal worms, 495.
 Colon, idiopathic dilatation of, 382.
 Compulsory vaccination, 453.
 Conception, period of, 90.
 Confinement, quick getting up after, 286.
 Congenital syphilis, 516; causing amyloid disease, 21; torticollis, 383; absence of vagina, 614; knock-knee, 723.
 Conjugal question, 92.
 Conjunctival affections, molasses in, 689.
 Conner, J. J.—The management of the new-born child, 631.
 Conservatism in gynecology, 743.
 Constipation, glycerine injection for, 160; in children, 161.
 Consumption, 291; pulmonary, treatment of, 195; apex expansion *versus* pure air in, 295, 302; and sex, 357; statistics of, 450.
 Contagion, possible carrier of, 350.
 Contagious diseases, quarantining of school children after, 306.
 Contagiousness of phthisis, 777.
 Contractions of uterus during pregnancy, 242.
 Contusion of eye, 150.
 Conviction of Dr. Cross for murder, 126.
 Copaiba in infantile leucorrhœa, 595.
 Cornea, ulcers of, 64; transplantation of, 368; pterygium covering the, 633.
 Coroners, rights and duties and powers of, 268.
 Corrosive sublimate, poisoning with, 177; in diphtheria, 244; an antiseptic, 617.
 Corson, H.—Quinine: its use and abuse, 555; celebration in honor of, 654.
 Cotton-packer, 338.
 Cough, winter, syrup of tar in, 368.
 Court Bibles and disease germs, 382.
 Cramp, writers', relief of, 419.
 Crandall, J. B.—Cholera germs destroyed by ammoniacal gases, 332.
 Cranium wounds, treatment of, 826.
 Cranium, wounds of, 45; penetrating gun-shot wounds of, 418.
 Creasote in phthisis, 25, 95, 343, 517, 698; in affections of lungs in children, 822.
 Creolin in cystitis, 254.
 Cretinism, 621.
 Crime, castration a cure for, 511.
 Criminals, method of identifying, 616.
 Criticism, 121.
 Croton water, sanitary condition of, 809.
 Croup, membranous, 663.
 Curetting the uterus in endometritis, 567.
 Currier, J. M.—Large brain in a woman, 160; koumiss and lupulin, 221; early accounts of diphtheria in New England, 483.
 Cyanosis, 113; mechanism of, 32.
 Cyst, intra-ligamentary, 79; ligamentous, 236; spermatic, of scrotum, 669.
 Cystic goitre, treatment of, 243; kidney, evolution of, 665; congenital degeneration, 666.
 Cystitis, chronic, prescription for, 225; injection of quinine in, 517.
 Cystotomy, successful, 51.
 Cytisine in migraine, 369.
 Dactylitis, syphilitic, 371.
 Dangers of water gas, 512.
 Davis, N. S.—Pneumonia, 35.
 Davis, S. T.—Removal of the uterine appendages as a remedial measure, 802.
 Death by decapitation, mechanism of, 567; from druggist's blunder, 616.
 Deaver, J. B.—Nephrectomy for new growths, 772.
 Deformities, osteoclasia for correction of, 22; influence of heredity upon, 94; cure of, 395.
 Delirium, iodoform, 654.
 Dental irritation a cause of epilepsy, 67.
 Dentistry practice, tribulation of, 513.
 Dentition, intra-uterine, 709.
 Dermatology, practical course on, 386.
 De Wees, W. B.—The conjugal question, 92; diseases and their treatment in Armenia, 467; amenorrhœa, and its treatment, 841.
 Diabetes mellitus, saccharine in, 212.
 Diagnosis, differential, of syphilitic ulcers, 242; of intestinal obstruction, 279; differential, cocaine as a means of, 384; of chemical dyspepsia, 390; medical *versus* therapeutic, 531; of cerebral tumor, 536; of wounds of abdomen, 719.
 Diaphragm, wound of, 99.
 Diarrhœa, putrid, 319; infantile, treatment of, 346; fetid, treatment of, 795.
 Dirotism of the pulse in insufficiency of the aortic valves, 850.
 Digestions, negative or anachlorhydric, 393.
 Dilatation, idiopathic, of colon, 382; digital, of pylorus, 412; of cervix, cocaine in, 517; ampullar, of tongue, 668.
 Dioptric cylinder, value of, 718.
